Packaging

Carton size : 62 x 44 x 30 cm

Weight per carton : 4.00 kg

Customisation

- Flex : It is the recommended marking technique for small and medium-sized series. There are several aspects: smooth, velvet, fluorescent, glitter, gold and silver. These are iron-on vinyls that are cut and glued by hot pressing. They are very well suited to a wide range of materials and substrates.
- Transfert : The right technique for all materials. It is recommended for luggage, heavy garments, difficult to access surfaces. It consists of transferring the marking from a paper support to the garment by hot gluing. The marking by gluing brings rigidity to light supports at the level of the marking zone, nevertheless, the product keeps all its qualities of comfort.
