## Description

---

GP-97 ECO by IMPLIVA the windproof ECO+ umbrella that consists almost entirely of ECO-friendly materials! The shaft, the handle and the tips are made of bamboo, for maximum sustainability. Bamboo is one of the most environmentally friendly resources we know. Bamboo grows very quickly, does not need a lot of water and is super strong. And of course, bamboo fibres are 100% biologically degradable. The high quality cover consists for 100% out of recycled PET bottles. These environmentally friendly materials, in combination with the strong and flexible fiberglass frame, ensure a maximum sustainability. And this means the smallest possible ecological footprint! The ideal umbrella for environment-conscious users.
