**Softshell**

Softshell with TPU membrane consists of three layers. Due to the microporous TPU membrane as middle layer the material is water-proof, wind-proof and breathable at the same time.

**Reflex**

IQseen is the brand for high reflective materials. With an even distribution around the body this material will make the wearer visible of a distance up to 160 meters. IQseen silver reflective materials fulfill the requirements of the EN 471. Millions of glass beads reflect the light back to its source. The wearer of the product becomes more visible and the motorist has more time to react. This makes the difference! Clearly visible!
