

**Casual, functional outdoor jacket**

Wind- and waterproof fabric
(3,000 mmwater column) with TPU coating
Breathable and permeable to water vapour (1,500g/m²/24 h)
Taped seams
Zips in contrasting colour
Concealed front zip with chin protection
Adjustable hood with elastic cord
2 zipped side pockets
Inner pocket
Fashionable reflective details on hood, at the front and back
Zip for decoration at the back
JN1117: waisted

Fabric: Outer fabric: 100% polyester
Lining: 100% polyester

Country of origin: Bangladesh

Customs tariff number 62029300

Breathable-Permeable to water vapour

Functional textiles must have the ability to transport moisture from the skin to the fabric surface as fast as possible. Permeability shows how much steam in grams can evaporate on a surface of 1 m² within 24 hours. The higher this figure, the more breathable the textile is.

Water column from 1.500 mm

The ability to withstand water pressure without moisture penetrating into the material is given by the water column (mm). The minimum standard is a water column of 1,500 mm.

Taped seams

To avoid moisture penetrating into the fabric, seams and stitches can get taped. Taped seams are 100 % water-proof.

Reflex

IQseen is the brand for high reflective materials. With an even distribution around the body this material will make the wearer visible of a distance up to 160 meters. IQseen silver reflective materials fulfill the requirements of the EN 471. Millions of glass beads reflect the light back to its source. The wearer of the product becomes more visible and the motorist has more time to react. This makes the difference! Clearly visible!
